**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### *Status of Claims*

Claims 1-32 are pending in this Office Action.

### *Election/Restrictions*

- I. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-6, 19-21, 26-30, drawn to determining an identifier representing a proxy address, classified in class 709, subclass 227.
  - II. Claims 7-14 and 22-25, drawn to a terminal with a graphical browser for multi-modal communication, classified in class 709, subclass 228.
  - III. Claims 15-18, drawn to a browser with a multi-modal proxy identifier, classified in class 709, subclass 223.
  - IV. Claims 31-34, drawn to controlling format of data transferred, classified in class 709, subclass 230.

The inventions are distinct, each from the other because of the following reasons:

Inventions in Groups I, II, III, and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in Group I has separate utility such as determining an identifier representing a proxy address. See MPEP § 806.05(d). Invention in Group II has separate utility because it provides terminal with a graphical browser for multi-modal communication. Group III has separate utility because it provides a browser with a multi-

modal proxy identifier. Group IV has separate utility as such controlling format of data transferred.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group IV is not required for Groups I, II, and III, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

### ***Time for Response***

Under 35 U.S.C. 133 a shortened statutory **period to reply to this Office Action is set to 30 (thirty) days.**
